WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/KR2004/001854

Box	No. I Basis of this opinion
1. V	With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
	This opinion has been established on the basis of a translation from the original language into the following language, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
	With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the laimed invention, this opinion has been established on the basis of:
a	type of material
	a sequence listing
	table(s) related to the sequence listing
b	format of material
	in wirtten format
	in computer readable form
c.	time of filing/furnishing
	contained in the international application as filed.
	filed together with the international application in computer readable form.
	furnished subsequently to this Authority for the purposes of search.
3.	In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4. A	dditional comments:

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/KR2004/001854

Box No. V	Reasoned statement under Rule 43bis.1(a)(i) with regard	l to novelty, inventive step or industrial applicability;
	citations and explanations supporting such statement	

Statement Novelty (N)	Claims 1-5	YES
110.010 (11)	Claims NONE	NO
Inventive step (IS)	Claims 1-5	YES
	Claims NONE	NO
Industrial applicability (IA)	Claims 1-5	YES
	Claims NONE	NO

2. Citations and explanations:

Claims 1-5 of the invention meet the criteria set out in PCT Article 33(2)-(4), because the prior art does not teach or fairly suggest any of the embodiment as specifically set forth in the claims.

More specifically, none of the prior art teaches or fairly suggests the claimed method for automatically setting a frequency of a base station in a CDMA system of claim1

,where the system comprises a block of base station status management(BBSM) controlling and managing digital units, and a block of RF control(BRFC) automatically setting a RF frequency, said method comprises a step of : for for

requesting RF configuration data;

transmitting the frequency configuration data to the BRFC;

setting the frequency of the base station on the basis of the frequency configuration information.

Claims 1-5 meet the Criteria of PCT Article 33(4), IA, because the invention can be used in the industry.
